

"God uses men who are weak and feeble enough to lean on him."

- Hudson Taylor

Dear Friends:

Greetings in the Name of Jesus!

Words fail to describe the gratitude we feel for your prayers and support as we equip a new generation of Spirit-filled leaders.

And, we have good news to share with you this month. The combined *current* enrollment of the four schools of Global University has surpassed the 500,000 mark! Many thousands of those are learning of Jesus for the first time through a course designed for them. Many more thousands are engaging in Bible study where materials and teachers are rare or absent.

Others are being trained for ministry. Still others, are studying to teach and lead Bible Schools in the developing world.

Below, find reports that we hope will be an encouragement to you.

Thanks again, for praying for us, for asking the Lord to send laborers, and for your faithful financial support.

You have heard of the Palm Sunday bombings of two Coptic churches in Egypt. I photographed this beautiful church from a hotel window in El Mynia. Please pray for believers in Egypt and for the leaders that we are training through our Graduate Studies Group in the country.

The photo of this young man represents a largely unreached and persecuted people group that is now coming to Christ in relatively large numbers. A new generation of Spirit-filled leaders there are being trained through Global University.

The Lord has been moving in Latin America. Recently, leaders from the Colombian Assemblies of God met with our GU leadership. They shared they have more than 800 bachelor degree students, 5000 Christian Service students and 250 study centers in Colombia. They have a vision to plant 1,000 more churches.
